

UNLIMITED, ALL-INCLUSIVE IT SUPPORT

If you are tired of working with IT firms that simply fix what is broken, then it's time to look at eGuard Tech. Our proactive managed services prevent your IT from breaking in the first place.

At eGuard, we offer affordable, direct access to a dedicated technology team of professional and knowledgeable experts. With our proactive, all-inclusive approach to Managed Services you can rely on us to be your one-stop shop for all your IT support needs. We handle your IT, so you can stay focused on your business.

Our comprehensive approach means you can be sure that we will treat your IT network and assets as though they were our own, with seamless customer support and state of the art solutions. We will optimize your network and applications performance, and maintain the peak efficiency and reliability standards that your organization demands.

How eGuard helps your business succeed:

YOUR ONE STOP SHOP FOR IT SUPPORT | From MSP support, to web development or security and compliance services, eGuard Tech is ready to assist with all your online and computing needs.

CLOUD COMPUTING | As the Cloud experts for small and medium businesses in the DC Metro region, look to us to build the perfect platform for your specific business requirements.

TOTAL IT CARE | Every Managed Services package offers an Enterprise-level experience without the Enterprise-level price tag. vCIO services are included.

24/7 IT AND NETWORK SUPPORT | Expert Help-Desk support with weekly on-site visits with your dedicated network engineer.

"eGuard makes my job easier by always letting me know ahead of time what the full plan is. I feel very comfortable with the eGuard staff...they are very customer –focused and easy to talk to."

Anita Joshi,
National Investor Relations Institute

We support, design and manage our clients online data, applications and security with our signature services and dedicated approach to customer care.

TOTAL IT CARE

Our comprehensive, all-inclusive managed IT service. Unlimited support hours promise is included in every plan, along with 24/7 IT and network monitoring and maintenance, weekly on-site visits with your dedicated network engineer, with 8:30-6 help desk support.

TOTAL BACKUP CARE

Our DR/BC solution provides the backup stability and predictability that you need to protect your data, your business and your reputation. Our redundant, offsite mirror data imaging to our secure data center gets you up and running quickly in the event of a disaster.

TOTAL CLOUD CARE

We build customized cloud platforms that offer simplicity and security, tailored to your specific business needs. Choose from full or hybrid data migration options to manage and maintain your precious business data, email and file access storage needs.

TOTAL SECURITY CARE

Streamline your security & compliance processes and minimize your security risk. We keep your business and your data secure with Cyber Attack Defense advanced security protection, SIEM Services and End Point Defense tools that proactively locate and prevent security threats.

TOTAL WEB CARE

Build and maintain your website and online assets with our web solutions package. We'll design a customized website targeted to reach your desired audience using the CMS of your choice, and help maintain it with managed SEO and Pay-Per-Click (PPC) services.

SHAREPOINT CONSULTING

Modernize your business infrastructure with SharePoint. Fully integrated with Microsoft Office and Office 365, this flexible, fully-customizable tool can be designed and build around your business needs. We can create sites, portals, intranet/extranets and more.

SALESFORCE DEVELOPMENT

We can help you get more from the #1 CRM platform in the world. Our team will build and support a custom Salesforce application for your business or non-profit. This best-in-class tool will help your sell, service, market and connect with your clients and prospects.

CUSTOM WEB DEVELOPMENT

Our development team works with you to find and build the online tools and applications that meet your specific needs. If you can imagine it, we will do whatever we can to make it happen...that's our approach to building and enhancing your online presence.
